

Spin the earth. Pick a year. Hear the world.

Spin a 3D globe, tap a country, slide to a year, and hear what came out of that place at that moment.

WHAT MAKES IT DIFFERENT

- ◆ An archive organized by place and time
- ◆ Any year from 1900 to today
- ◆ Every US state and UK nation its own map
- ◆ Number one hits by country and year
- ◆ Verified artist pages

Built on records, not vibes

Everything is checked against MusicBrainz, Discogs, official charts, and artists' own channels. If it cannot be verified it does not go on the site.

An empty panel is an honest answer. A padded one is not.

WHAT YOU WILL FIND

nearly **19,000** artists
76 countries built from scratch

Vintage Lao 45s. Zambian Zamrock. Mongolian rock from the socialist era. Haitian kompa. Trinidadian calypso. Paraguayan guarania.

THERE IS MORE ONCE YOU ARE IN

Full artist pages. A release feed. Follow artists and build a taste map. Three new artists a day in Discover.

STILL BEING BUILT

Live and growing, with new artists and features added all the time. If something looks thin, that is honest, and it is probably next on the list.

Free to explore. No ads. No account needed.
