

FIOH — Forever In Our Hearts

*An interactive light sculpture where
anyone can add someone they love — live.*

The Experience

Scan a QR code. Upload a photo of someone you love. Watch it appear on the illuminated heart in real time — surrounded by reactive visuals that respond to every new tribute.

Free to participate. Open to everyone.

More Than Memorial

FIOH is a heart. It holds the people we've lost — and the people still with us.

- Celebrations of life and remembrance events
- Valentine's Day and love-themed nights
- Día de los Muertos
- Festivals and public art activations
- Venue residencies with themed programming year-round

One sculpture, endless occasions to celebrate love in public.

BUILT, NOT CONCEPTED

Four years in development. The live upload platform, content moderation system, reactive visual worlds, and multi-venue management are all operational — designed and built end to end by artist Stefano Kajatt.

One Sky Ally LLC · Trademark filed

CURRENTLY

The V1 heart is built and operational. Actively seeking venue and festival partners for public activations.
