

FIOH

FOREVER IN OUR HEARTS

A live audience-tribute art installation. Any surface becomes a canvas for love.

FIOH lets any audience shape a visual experience in real time. A guest scans a QR code, uploads a photo of someone they love, and watches it appear live, woven into reactive visuals through projection, light, and music. No app, no account, no barrier to entry. The heart sculpture is FIOH's first form; the system behind it is built to bring that moment to any canvas, at any scale.

HOW IT WORKS

1

Scan

Guest scans a QR code at the installation

2

Upload

Adds a photo of a loved one (pets too)

3

Witness

Their tribute appears on the heart, solo then joined by others

ANY CANVAS

- Projection-mapped sculptures and set pieces
- LED walls and video surfaces
- Building facades and architectural mapping
- Mist and water screens
- Themed attractions and immersive environments
- One activation or many, across a venue or a city

THE SYSTEM

- **Live upload to display.** Every photo is automatically background-removed and framed into a portrait, revealed solo with an optional name, then joins the grid of all active tributes.
- **Moderation built in.** Automated review clears most tributes instantly; human oversight layers in for high-stakes productions.
- **Themeable end to end.** Upload page, reactive visual worlds, and seed tribute banks styled to the occasion or the venue.
- **Bilingual by design.** English and Spanish throughout, auto-detected from the guest's phone.
- **Flexible access.** Free participation or adjustable pricing, set per event.
- **Multi-venue from one dashboard.** Each activation added, themed, and monitored independently.
- **Privacy by design.** Photos deleted within 24 hours. Nothing sold or shared.

APPLICATIONS

- Venues and nightlife with themed programming
- Theme parks and immersive attractions
- Festivals and large-scale productions
- Seasonal activations (Valentine's, Día de los Muertos)
- Ceremonies and milestone events
- Permanent placemaking installs

THE PRODUCTION LAYER

FIOH runs beautifully unattended as a standalone interactive feature. It also scales into a full production:

- Original music composed for the occasion
- Live musicians performing with the installation
- Live lighting and VJ'd visual worlds
- A finale show that gathers every tribute of the night
- Sensory surroundings, from haptic seating to full environment design

Because everyone deserves their moment to shine.

Reach out anytime, I'd love to connect.
